

## TARIFF PICTURES.

Hop growers have good reasons for fearing the McKinley bill. It is said during the first years previous to 1890 our annual average export of hops was \$1,082,000.

In 1892 under the new Tariff we exported hops to the value of \$9,430,500.

—New York Press.

IN A QUANDARY.

*St. Louis Globe-Democrat.*—A year or so ago Senator Hill said he didn't know whether his party had a Tariff policy or not, and nearly every leader of that party is in the same fix now.

+

THE NEW BROOM.

*New York Press.*—It is announced that the new Commissioner of Pensions will make a clean sweep of the Pension Office. He would please his party more by making a clean sweep of the pension roll.

+

A NEW FORM OF STATE RIGHTS.

*Harford Post.*—In defending Embreezer Roads, who has been chosen Senator from North Dakota, the argument of the Democrats seems to be that any state has a right to be represented by a rascal if it wants to be.

+

*New York Tribune.*—It requires the joint act of the President and the Senate to create an American Minister Plenipotentiary. But it seems Mr. Cleveland thinks that the President can still make a "Special Commissioner" with powers paramount to a Minister's. Since when did a part become greater than a whole?

+

A CHURCH BUILDER.

*New York Tribune.*—One of the most notable features of the reign of Emperor William is the extraordinary impulse which has been given during the last few years to the building of churches in various parts of the Empire. In Berlin alone no less than twenty new churches have either been erected or commenced since the accession of Emperor William, which added to the four-and-twenty evangelical churches with which the Prussian Capital was previously provided, will render Berlin as fully entitled to style itself "The City of Churches" as Brooklyn. These new churches represent a money value of 20,000,000 marks, 3,000,000 of which have been provided by the Emperor and the Government, while all the remainder has been raised by voluntary contribution.

+

AN UNPatriotic ADMINISTRATION.

*Rochester Democrat and Chronicle.*—Up to date the foreign policy of the President has been a disgrace to the American name. His "Finance Minister" and Secretary of State were not just scolded when they made their appearance at the tribunals of arbitration in Paris. These representatives were represented as little better than thieves who were drawing unnecessary salaries, and at one time there was prospect that two or three Secretaries would be recalled and publicly disgraced. The news of the singularly meek attitude of Secretary Gresham and his master reached Paris, and it is presumed a protest of great heat came back over the cable. It was so hot that Secretary Gresham winced and made a most humiliating apology, in which the blame was placed on the Administration newspapers.

*The League to MEET.*

*New York Tribune.*—The Republican National League meets on May 10th at Louisville. A great and interesting assembly is anticipated. Chairman Carter of the National Committee has summoned that body, the highest organization of the party, to meet at the same time and place, and there will be brought together the men most conspicuous in party work and public life from every state in the Union. It has been chosen as a more suitable occasion for the League Convention might have been found later in the year, but that matter was determined by the Buffalo Convention, and was not subject to review on the part of those who issued the call for the Louisville meeting. It is to be hoped in mind, too, that it takes time for the results of such an assembly to be carried all over the country and to bring forth the fruit in party work prior to the fall elections which are intended to secure. One thing is certain—the Republican party cannot be hurt by too much discussion. Ours is not the party that suffers by having its plans and purposes analyzed and explained, or by putting its leaders forward in full view of the people.

The general officers of the League are making great efforts to insure the success of the convention. These efforts should be sustained by the League membership in every state. It should be a full convention. No element of the party and no part of the country should fail of representation. The influences that will proceed from the acts and deliberations of the convention can be made most powerful in aid of Republican success wherever there is a state election next fall, and every resource should be strained to render them commanding.

## THE GIGANTIC.

Monster Ship to be Built for the  
White Star Line.

It Will be Larger than the Famous  
Great Eastern.

The Voyage to be Made From Greenpoint  
to Sandy Hook in About Four Days—  
England Thinks Well of Our Navy  
and Wants to be More Friendly.

London, May 1.—The naval review in  
Southwark has been attended with more  
attention over here than anything occur-  
ring in America for a long time. Wherever British war vessels go one  
can be sure they are followed with eager interest. The navy is the one  
strength and glory of the English.  
The English are jealous of power. Both  
the press and the public comment on the  
fine showing made by the British  
warships at New York.

The gathering together of so many  
American ships was also showing the  
strength of the new navy, and has had a  
visible national impression here and  
may be said to mark a distinct step to-  
wards cementing the cordial relations  
of the two countries. Herd and there  
is talk of a naval war, but we know what  
the United States want with what the  
growlers call an unnecessarily big navy, but the general  
feeling is that suggested by the St.  
James Gazette. Speaking of the re-  
view it says:

"Most striking in some ways was the  
United States contingent itself. As  
was only natural, it was the largest on  
view—fourteen vessels in all. And  
these American ships were to be re-  
membered, are to be remembered. All  
had regulation objection to a naval and  
to an aggressive foreign policy is fast  
disappearing or gone already. The  
United States navy counts eighty ves-  
sels, carrying over 1,000 guns. They  
have got half a dozen very respect-  
able ironclads, and more are build-  
ing."

The new Cunarder Campania, due in  
New York as this is written, is soon to  
have her rival in the White Star ves-  
sel, which will be larger, faster, and  
in every way more remarkable. Her  
builders are making a great secret of  
her construction, and all information is  
withheld. However, it has leaked out  
that she will be called the Gigantic.

While the Cunarder's largest ves-  
sel now afloat, is 900 feet long, 63 foot  
beam and of 30,000 horse-power, the  
new Gigantic will be longer than the  
Great Eastern. Her dimensions are 700  
feet length, 68 foot beam and 45,000  
horse-power. She will be 100 feet  
longer than the Great Eastern and  
15 feet less in breadth. The horse-power of the Great Eastern's en-  
gines, however, was less than 8,000.

The Gigantic is to run at a speed of  
twelve knots, and will be built in the  
ocean, so that the voyage from Queens-  
town to Sandy Hook will be reduced to  
about 100 hours, or just over four days.

### EXPOSITION GUIDES.

How They Will Answer Visitors' Questions  
on Methods of Transportation at Jackson  
Park.

CHICAGO, Ill., May 1.—The Colum-  
bian fair guides will number 100 men,  
and will wear gray uniforms. They  
will be hired like gondoliers upon  
the exposition lagoon, and are instructed  
to answer civilly any and all questions  
posed by visitors who employ them.

Rehearsals of the guides are being  
held now. They are expected to an-  
swer promptly all questions relating to  
the exposition grounds, and will be  
allowed to speak freely on all subjects,  
but will be permitted to answer gravely,  
"I don't know," when asked, "Where  
is my umbrella?" or "Why is it so cold  
in Chicago?"

A fleet of the guides launches has  
been placed upon the lake near the lagoon  
in the exposition grounds, and will be  
ready for active service Monday morning.  
These craft, together with the  
gondolas from Venice, will offer trans-  
portation for many thousands of visitors  
from the lagoon to the various  
mounds, inasmuch as the waterways wind  
through all portions of the grounds,  
and afford the easiest method of travel.  
Electric trains on elevated roads will  
run from point to point in the grounds,  
but it is expected that these will be  
already overcrowded, and therefore un-  
comfortable to use.

The Illinois Central railroad, running  
from the city to the exposition grounds,  
is already causing general complaint by  
its failure to open on time. The thousand  
of exhibitors and sightseers who are  
daily going back and forth, are obliged to hang on to trains  
as best they can, even the steps to the  
platforming cars, owing to the utmost  
crowd. People will not ride in the  
locomotive boiler, owing to its excessive  
heat; but they are almost literally  
hanging on by the ears to every other  
available spot.

Such a collection of things augur ill  
for the traveling public when the ex-  
position gets fairly under way and  
added multitudes are forced to use the  
Illinois Central in getting to and from  
the city.

A compliment to the Admirals  
and their crews, who have built  
and foreign ships in the harbor, received an  
invitation to visit the World's fair. A  
special train was placed at their dis-  
posal by the New York Central rail-  
road, and they were asked to name an  
hour when they could conveniently  
stop.

Mr. Campbell Undergoes an Operation.

NEW YORK, May 1.—Mrs. Campbell,  
wife of the ex-governor of Ohio, un-  
derwent an operation for a removal of  
cervical tumor. The operation was  
unsuccessful and the physician says health  
will be restored to the lady.

### E. L. Harper's Free Han-

COLUMBUS, O., May 1.—E. L. Harper,  
the Fidelity bank wrecker, was re-  
leased from the penitentiary Monday  
morning, having completed six years of  
his sentence.

## DUKE DE VERAGUA

Presented With the Keys of Chicago and  
Washington and the Nation's Honored  
Citizens. May 1.—The gates of the  
World's fair city were opened wide Sat-  
urday morning to receive the advance  
guard of the distinguished visitors from  
far and near, who on Monday next will  
dignify by their presence the formal  
opening of the World's Columbian ex-  
position.

Little of pomp and ceremony marked  
the reception of the duke of Veragua  
and his party, but there was a true  
western frankness and洒脱 about the  
welcomes that made him feel at once  
that he was at home, and in the  
house of his friend.

The second section of the Columbian  
express, to which the distinguished  
representatives were quartered, reached Grand  
crossing shortly after 9 o'clock. There  
was a stop of a moment to enable the  
reception committee to get aboard, and then  
the engineer opened the throttle and the train sped on toward  
Chicago.

When the ducal party had alighted  
from the train, which had reached the  
union depot at 10:30, President Palmer  
extended his hand, and, again grasping  
the hand of the duke, formally welcomed  
him to the World's fair and the World's  
fair city.

The duke kept a tight hold of the  
ex-senator's hand during the few moments  
that he was delayed by the address, and  
then withdrew it easily, saying in a few words  
the honor, pleasure, and gratification which it gave him,  
not merely as an individual but as a  
citizen of Spain and a humble descendant  
of the discoverer, to meet himself  
without delay within the walls of a city  
with the greatness of which he was already,  
to a small extent, familiar.

When the formalities were over the  
visitors and committee formed in line,  
the procession made its way through  
the crowd and the scene was set for the  
big flight of steps into Canal street.

The duke was evidently surprised as  
well as affected by the unexpected re-  
ception and the heartiness with which  
he was received. After stepping up to his  
carriage he stood for a moment as though  
uncleaded concerning the proper thing to do, and then, turning  
successively to the east and the west,  
north and south, he bowed his thanks  
with grace and dignity.

The duke was greatly delighted to com-  
plete the arrangements of the pro-  
cession, and the head then moved  
around the corner and east on Adams  
street.

While the head of the procession  
rounded the Pullman building, and deployed into Michigan avenue, a salute of fifteen guns was fired from the revenue cutter Andrew Johnson, which was lying at anchor in the harbor.

On reaching the auditorium the  
visitors were shown to their apartments  
without any further formalities.

The entire second floor had been re-  
decorated for their comfort and accommoda-  
tion.

Rooms were had all day, and  
afternoon pictures were given with flowers  
and plants, a thoughtfulness which gave  
especial gratification to the ladies of the party.

Major Carter Harrison and the aldermen  
were received at the hotel, and the mayor  
had a room reserved for the function.

The mayor made an address in English,  
and when the mayor concluded he presented the duke with the freedom of the  
city in the form of a series of res-  
cripts, ingeniously engraved and illuminated  
on parchment, together with a set of silver keys, the whole inclosed  
in a costly case.

The duke received it with a low bow  
and spoke in English to express the  
appreciation of the honor and the  
pleasure it gave him to arrive in Chica-  
go.

The municipal party had barely left  
the hotel when the national committee  
of the exposition came to the hotel.

President Palmer introduced each of

his colleagues in turn, and then President  
Palmer presented the duke with an open  
sesame to the World's fair, good for the season and engraved upon

silver.

Next Gov. Atwood and the members  
of his staff to a total of 20, filed up the  
corridor and into the apartment.

Then there were more welcomes and  
handshakes, and after further introductions,  
After all of which the duke and his  
party went to dinner.

NEXT DAY THE DUKE ARRIVED.

Lient. Plummer can not come with the  
Spanish forces.

MONDAY, MAY 1.—A Durango special  
says Lient. Plummer has succeeded in  
inducing the Indians to surrender the  
headquarters of Tricerio Welch, which  
are now in the possession of the Indian  
chieftain and his followers are arming  
however, for a fight.

Numerous armed parties have started to  
the scene of the trouble, seventy  
miles away. Great excitement prevails  
in Durango, the Indians being regarded  
as the lone having that rare  
sympathetic quality which blends  
them with the Indians.

They have earned the name of  
"The Most Skillful Workmen." They  
have earned the name of "The  
Lient. Plummer" in town, and after returning  
to Durango, he has been engaged in  
negotiations with the Indians, and  
has received several first premium  
during the past few years.

He has given the Indians no trouble,  
and it is thought he was overthrown.

NEWS WILL BE CONTINUED.

The Distilling Stake at Lexington was won Saturday by the Southern Liqueur in a beautiful field. He belongs to Elmer Haley and is a Kentucky Derby winner.

OUR neighbor of *The Leader* reports a man "planting corn with an overcoat on." He ought to have given some particulars as to the quality and style of the garment, and where the corn bought it.

THE House of Representatives Saturday adjourned itself with the consideration of a serum pony measure and a bill making it unlawful for anyone to exhibit an uncaged bear on the public highway.

THE Richmond, Irvine, Nicholasville and Frankfort is to be extended through the town of Irvine, and it extends from Versailles to the West side of Irvine, a distance of thirty miles.

THE only important business transacted by the Legislature Saturday was the unanimous acceptance of an invitation to attend the Lexington races to-morrow. It is unnecessary to add that the people will foot the bill.

THERE was a "graze" at C. A. Rich's model Big House Saturday night. A cool east wind blew hard on the floor. It burned through and falling on a pile of iron beneath is the only thing that prevented a fire.

JAMES CATES and James R. Hunter, the Detectives who were under arrest at Flemingsburg for violating the Prohibition law, were tried Saturday and acquitted. The unfortunate entrapped by them have not been tried yet, however.

OF the three accused murderers of Mr. Almon Delaney on trial at Morgantown, George Head and Alex. Thompson were discharged, while one was bound without bail to wait the action of the July Circuit Court. The others waived examination trials.

GOVERNOR BROWN has pardoned Molvin Butter, sent from Louisville in 1868 to the penitentiary for life for the murder of John McCallum, and he was bound without bail to wait the action of the July Circuit Court. The others waived examination trials.

THOSE who have seen the rehearsals for "Stage Life" predict that it will prove a delightful and brilliant entertainment. One of the most charming scenes of the evening's enjoyment will be the dancing of the Minuet by eight young ladies. Between the acts some beautiful musical selections will be rendered by Miss Lida Berry and Charles Rosauer.

—**Health Authorities.**

Still another Princess of Sweden, her name to the long list of those of royal rank who have entered the competition for honors in the literary world. While in Berlin last winter, for the benefit of health, the Crown Princess of Sweden had an elaborate journal of her thoughts, experiences and observations. This she has now printed. Only a few copies of the work have left the press. Address, Mrs. Anna von Bismarck, the members of the royal family of Sweden. The Crown Princess is the daughter of the Grand Duke of Baden, and the cousin, therefore, of the Emperor of Germany. She has been married to the King of Sweden since 1860. She is now in Europe, and will bring about her early death. She is unable to endure the rigorous Northern winter.

### Need For Missionaries.

It is customary for a Buddhist Priest to be present at the birth of a child in India, and the words with which the little newcomer is welcomed into the world by both man and woman are: "Come, come, weep, weep, weep, weep, weep." says he, "while all around you smile. Strive to live in such a manner that when you depart this life you will smile, while all around you weep."
